

MOBILE APP

In this era of mobility, users need all required functionality on the go. It has become crucial to have a smart app which provides core functionality for organizations with the ability to centralize and manage inspections, toolbox meetings, audits, incidents, hazards, and register mandatory measures.

The HSE mobile app provides users with the ability to manage all required aspects on the go.

ABOUT US

Master Solutions has always been a company who takes pride in our ability to solve complex business challenges in an innovative manner. Our solutions target your primary challenges. They are expertly handcrafted since 2005 by our full service software, web and mobile app development department.

Our goal is to engage a pragmatic approach towards delivering the best solution to our customers.

HSE-IRS

Experience the ease

THE HSE SOLUTION

HSE is a revolutionary system based on the OSHA (Occupational Health and Safety Assessment) standards. Our software is tailored to fit the compliance and control needs for environments, health and safety within leading industries. Our software has even been tested to be compliant with EU environmental laws!

Aided by this expertly crafted system your managers, engineering experts, problem owners and even customers can excel in their respective areas. Our system provides you with:

- ✓ Incident registration, classification and assignment
- ✓ Risk analysis
- ✓ Information management
- ✓ Monitoring all open HSE cases
- ✓ Auditing
- ✓ Centralizing internal and external information
- ✓ Managing presentations and "Toolbox" information
- ✓ Personalized control views and dashboards
- ✓ Powerful reports
- ✓ Web based Interface

SAFETY MANAGEMENT

Use the HSE-IRS software to efficiently and quickly register, apply measures or manage risk escalation for any case.

HSE-IRS BENEFITS

The HSE solution feels intuitive, responsive and familiar which provides a user friendly experience. It safeguards security, empowers your business through its speed and economic efficiency and ensures quality and time efficient management of your organizational requirements.

The HSE solutions has been designed in a modular way which enables it to be flexible in order to match your company's processes and needs.

INTUITIVE DESIGN

A beautiful designed application which is compatible with all devices and browsers. It offers a clear overview of information and functionality.

TAILORED TO YOUR NEEDS

The application is easy to use and designed to be tailored to your company identity and needs. This way you can avoid unnecessary financial costs when you need features added or altered.

SUPPORT 24/7

Any solution can experience the occasional bug or incident. Our expert service desk is at your service 24/7/365 and available by phone, e-mail or direct access to our ticket system.

MANAGEMENT INFORMATION

Using your personalized dashboard, you can follow open cases, track statistics and export reports real-time!

EFFICIENCY AND SIMPLICITY:

Multiple complicated systems for simple tasks are a thing of the past. Centralize and optimize your solution with ease!

ADVANCED REPORTS:

Our powerful report system automates tedious tasks and efficiently provides you and your customers with the information needed. A full history of real-time reports is just a few mouse clicks away!
